Brainstorming an exciting, forward-thinking idea I can't wait...
3yr · Edited ·

I had the honor, alongside our Consul General, Ambassador Mr. Meron Reuben, to meet with Secretary of Housing and Economic Development of Massachusetts Mr. Mike Kennealy and Undersecretary for Business Growth Mr. [Mark Fuller](#), and to learn from them which measures the state of Massachusetts takes facing the increasing prices of real estate and the negative impacts that the pandemic had on the market.

One of them is Investing in projects of affordable housing (something that in Israel is less common and encouraged by the government) thus helping populations with lower incomes. Another aspect is providing grants for small businesses that suffered significantly due to the Covid-19 pandemic.

Israel has what to adapt and implement regarding those two major global challenges.
